of Education

About Test Blueprints

Test blueprints are created to provide guidance to Subject Matter Experts (SMEs) during the item writing phase of test development. In addition, we believe that they can assist those instructors who did not participate in item writing (and administrators) to understand the broad content of the item bank. Items are formally allocated across a course outline in a three-step process*:

1. CETE psychometricians use a formula which assumes that all competencies within a course outline are *essential* and of equal importance to produce a suggested test blueprint for review by Ohio Department of Education program specialists and SMEs.
2. SMEs are formed into small groups during item writing and focus on writing a specific EOC test. Once in small groups, SMEs review the course outline and associated test blueprint and have the ability to make revisions/changes to the blueprint with a persuasive rationale based on their experience and expertise.
3. The blueprints created during small group work must be approved by the larger/full panel of SMEs attending an item writing workshop, which is the last step and produces the final blueprint which is summarized here.

Test blueprints can provide high-level guidance to instructors on preparing students for testing. It is important to keep in mind that the blueprint is a tool that is used when developing the test item bank during initial item writing and test creation. As with all tests, the End-of-Course test forms are a sample of the item bank.

Interpreting the Blueprints

Test blueprints display the total number of test items SMEs planned to write to a particular *outcome* (as designated in the course outline created by the Ohio Department of Education Office of Career-Technical Education or by a vendor). The blueprint describes the item bank which is the total pool of test items created. Final test forms of 40-items are created from the item bank.

*This process for producing test blueprints was implemented October 1, 2015. All tests created prior to this date were done so under a different blueprint process and therefore will not have these blueprint reports available.

Computer and Mobile Applications

ODE Subject Code: 145020

Outcome #	Outcome Name	% Items Approved by SMEs
Strand 2. IT Fundamentals		
2.09	Project Concept Proposal	6.32
2.11	Troubleshooting	7.37
2.13	Rollout and Handoff	5.26
Strand 3. Information Security		
3.02	General Security Compliance	4.21
Strand 5. Programming and Software Systems		
5.01	Programming Concepts	8.42
5.02	Computational and String Operations	5.26
5.03	Logical Operations and Control Structures	12.63
5.04	Integrated Development Environment	4.21
5.05	Programming Conventions	6.32
5.06	Software Development Lifecycle	15.79
5.07	Configuration/Change Management	1.05
Strand 6. Web Development		
6.02	Links and Multimedia	4.21
6.03	Configuration/Change Management	2.11
Strand 7. Digital Media		
7.02	Multimedia Tools	8.42
7.04	Graphics	8.42

Computer Hardware

ODE Subject Code: 145025

Outcome #	Outcome Name	% Items Approved by SMEs
Strand 2. IT Fundamentals		
2.01	Security, Risks, and Safeguards	14.74
2.02	Networking Fundamentals	9.47
2.04	Emerging Technologies	5.26
2.06	Install and Configure	9.47
2.10	Equipment	11.60
2.11	Troubleshooting	9.47
2.12	Performance Tests and Acceptance Plans	7.40
2.13	Rollout and Handoff	7.40
Strand 3. Information Security
